Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The finality of the previous office action was discussed. The previous office action was indicated as final due to Applicant's newly provided definition of the term instruction. In the previous office actions, the examiner has defined the single instruction as the input signal. Applicant's last response defined the instruction as a construct that specifies or causes an operation to be performed and identifies its operand. This definition is consistent with the two dictionary definitions provided in the previous response. Therefore, a new search was conducted necessitated by the new definition of the term instruction and the office action was made final.
